"Kicks has really helped me get out of trouble and ensure I meet positive people and role models. These weekly sessions allow me to build new friends and grow my experience in working with people from different backgrounds."

Since joining Kicks my confidence and drive has massively improved thanks to the help from the coaching team, which has seen me complete a college course in electrical engineering and join an apprenticeship scheme.

I will always look back on Kicks fondly when I am older and hope to see others follow in my footsteps."

-Omar Bryon, Kicks participant
